Section D: Authorization

The undersigned customer agrees to purchase and Tarco agrees to sell a custom printed EasyLay UDL Synthetic Roof Underlayment in accordance with the terms and conditions of this agreement and the Custom Print Order Form.

The undersigned customer represents and warrants that they have all necessary permissions, licenses, and the full authority of the lawful owners or licensees of any image, logo, trademark, trade dress, or other proprietary materials to use the images reproduced in the attached proof for the purposes for which the undersigned customer intends, including if applicable, commercial purposes such as, advertising or other promotion of (the subject) building material. The undersigned customer agrees to indemnify, defend, and hold harmless Tarco, its affiliates, its directors, officers, and employees, from and against any and all claims, actions, costs, expenses, damages, judgments and/or settlements, including reasonable attorney fees, that arise out of or are in any way connected to the undersigned customer's use of any image or portion thereof included in this proof. If multiple customer authorizations are required, each customer shall print their names and sign and date this form.

This agreement shall terminate upon 30 days prior to written notice by either party to the other. Upon termination of the agreement, neither party shall be liable to the other for any damages whatsoever sustained or alleged to have been sustained by reason of such termination, except that the customer agrees to take and pay for Tarco's inventory of product with the undersigned company printing. Tarco intends to produce the order at the requested quantity, including a variance of plus or minus 10 percent or one pallet, whichever is greater. Customer agrees to accept and pay for complete orders including any variance. Tarco will not retain or store any leftover inventory for the customer. Completion of manufacture will be approximately 4 weeks from the date that Tarco receives the signed authorization of the printing plate
