TECHNICAL BULLETIN LB-08-09A-R1

EasyLay® - Application Update

This bulletin revises Tarco's specification with respect to securing LeakBarrier® EasyLay HPP Asphalt Saturated Underlayment using tin cap fasteners. This technical bulletin is effective April 12, 2010.

When EasyLay is secured with tin tags/caps, the material shall be covered on the same day of application with an approved base sheet when used in low-slope roofing applications, OR an approved underlayment or a suitable roof covering such as shingles, tiles, metal, etc., when used in steep-slope roofing applications.

If EasyLay published installation instructions and the above guidelines are not strictly followed, Tarco will not be responsible for the product performance.

If you have any questions or require additional information, please contact your local Tarco Sales Representative or email Tarco Technical Services at technicalservice@tarcoroofing.com
