TECHNICAL BULLETIN

LB-08-09A

LeakBarrier® EasyLay® - Application Update

This bulletin revises Tarco's specification with respect to securing EasyLay HPP Asphalt Saturated Underlayment using tin cap fasteners. This technical bulletin is effective September 09, 2008.

The use of TIN CAP FASTENERS to attach EasyLay is PROHIBITED. If LeakBarrier membrane published installation instructions and the above guidelines are not strictly followed, Tarco will not be responsible for the product performance.

If you have any questions or require additional information, please contact your local Tarco Sales Representative or Tarco Technical Services at (813) 484-8761.
