SAFETY DATA SHEET

SECTION 1 - PRODUCT AND COMPANY IDENTIFICATION

MATERIAL NAME: Asphalt Rolled Roofing

SDS NUMBER 604

PRODUCT DESCRIPTION: SBS Modified Bituminous Fiberglass Reinforced Base Sheet

CHEMICAL FAMILY: Mixture

PRODUCT USE: Weatherproofing

TRADE NAME (S): LeakBarrier® EasyNailBase

MANUFACTURER: Tarco

One Information Way

Suite 225

Little Rock, AR 72202

United States

TELEPHONE (TECHNICAL) 800-365-4506 (8:00 AM – 5:00 PM - US Central Time) Monday - Friday

TELEPHONE (EMERGENCY) 800-424-9300 (Chemtrec, in English)

SECTION 2 - HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW:

Overview All components listed for this product are bound within the product. When handled as intended

and under normal conditions of use, the product listed in this SDS is not expected to pose a physical hazard or health risk to humans. This product does not contain any form of asbestos

materials.

Prevention Avoid breathing dust, fumes, gas, mist, vapors, and/or spray.

Storage/Disposal Dispose of content and/or container in accordance with local, regional, national, and/or

international regulations.

Route of Exposure Inhalation, Skin, Eye, Ingestion

POTENTIAL HEALTH EFFECTS:

Inhalation Not expected under normal conditions of use. However, extreme exposures to dust and fumes

may cause upper respiratory irritation.

Skin Not expected under normal conditions of use. Repeated contact may cause skin irritation due

to roughness of product. Redness, drying and cracking of the skin (dermatitis) may occur following prolonged and repeated contact. Prolonged or repeated skin contact could result in absorption of hazardous components. Product may be slippery when wet, dusty or covered

with water, ice, dew, frost, or snow.

Ingestion Not intended to be ingested (eaten). If ingested, it may cause temporary irritation to the

gastrointestinal (digestive) tract.

Eyes Not expected under normal conditions of use. If dust enters eye, may cause irritation resulting

in tearing, stinging, redness or swelling.

Carcinogenicity When used under normal conditions, this product is not considered a carcinogen.

NE = Not Established

SECTION 4 - FIRST AID MEASURES

INHALATION If product is heated, exposure to fumes, vapors, or mists may cause irritation of the nose and

throat. Drink water to clear throat or blow nose to clear. Use of product in properly ventilated areas is not expected to cause adverse effects. Remove to fresh, uncontaminated air. Give artificial respiration and/or oxygen by trained personnel, if necessary and get immediate

medical attention.

SKIN Remove contaminated clothing and wash exposed skin with soap and water. If irritation

develops or persists, seek medical attention. If contacted by hot asphalt, cool with ice or water;

do not attempt to remove the asphalt material immediately; seek medical attention.

INGESTION If product is ingested, do not induce vomiting. If vomiting occurs, keep head lower than hips to

avoid aspiration of vomit into the lungs, which can cause inflammation or pneumonitis. Get

immediate medical attention.

EYES If material comes into contact with the eyes, immediately flush with plenty of cool water for at

least 20 minutes preferably at an eye wash fountain or until irritation subsides, occasionally lifting the eye lids to ensure thorough rinsing. If irritation develops or persists, seek medical

attention.

NOTES TO PHYSICIANS/

FIRST AID PROVIDERS Treatment must be based on removing the source of irritation with treatment of symptoms as

necessary. Water-Jel products have been shown to be effective in removing asphalt.

SECTION 5 - FIRE FIGHTING MEASURES

EXTINGUISHING MEDIA Water spray, Foam, Carbon Dioxide, Dry Chemical.

UNSUITABLE-

EXTINGUISHING MEDIA No data available

HAZARDOUS COMBUSTION-

PRODUCTS Carbon Dioxide, Carbon Monoxide. If burned, the material could release toxic fumes and

smoke.

FIRE FIGHTING-

PROCEDURESCombustible. Avoid breathing fumes. Use extinguishing measures that are appropriate to local

circumstances and surrounding environment.

FIRE FIGHTER PROTECTION Firefighters should not enter confined space without wearing NIOSH-approved self-contained

breathing apparatus with full face mask and protective equipment.

UNUSUAL FIRE AND-

EXPLOSION HAZARDS When heated, fumes may burn if ignition source is provided. Burning the products will yield

thick, black smoke. Petroleum asphalt fumes can explode if emitted in an enclosed

environment and supplied with an ignition source.

SECTION 6 – ACCIDENTAL RELEASE MEASURES

PERSONAL PRECAUTIONS Not applicable EMERGENCY PROCEDURES Not applicable

ENVIRONMENTAL-

PRECAUTIONS No data available

CLEAN-UP PROCEDURES Pick up large pieces. Vacuum dust. If sweeping is necessary, avoid creating dusts by using a

dust suppressant such as water. This will help to minimize potential exposures.

WASTE DISPOSAL METHOD Scoop up material and dispose in accordance with Federal, State, and local regulations. Do

not burn.

SECTION 7 - HANDLING AND STORAGE

HANDLING PROCEDURES Use this product with adequate ventilation. When handling uncontained material, use personal

protective equipment as described in Section 8 of this SDS. Do not remove release liner where sparks may ignite flammable vapors. Release liners are slippery. Remove from work area

immediately.

STORAGE PROCEDURES Store material in accordance with instructions on the product packaging, if any. Material should

be kept clean, dry, and in original packaging. Keep this product away from heat, sparks,

ignition sources, and open flames in accordance with applicable laws and regulations.

SPECIAL PACKAGING-

MATERIALS No data available

INCOMPATIBLE MATERIALS This product will react with strong oxidizing agents, reducing agents, strong acids and alkalis.

OTHER PRECAUTIONS Do not breathe dusts or fumes generated from cutting or heating this material. Comply with

OSHA and other safety standards and codes for roof work. Always use Fall Protection

Systems when working on roofs. Product may be slippery when wet, dusty or covered with water, ice, dew, frost, or snow.

SECTION 8 – EXPOSURE CONTROLS / PERSONAL PROTECTION

PERSONAL PROTECTIVE EQUIPMENT:

RESPIRATORY-

PROTECTION Not needed under normal use conditions. If exposure limits are exceeded, use a NIOSH

approved respirator. Follow all applicable respirator use, fitting, and training standards and

regulations.

EYES/FACE PROTECTION

Safety glasses with side shields are recommended

HANDS PROTECTION

Leather or cotton gloves recommended when handling to protect against mechanical abrasion. Promptly clean hands with waterless hand cleaner, clean fingernails and wash with soap and

water after handling.

SKIN/BODY PROTECTION

Normal work clothing (long sleeved shirts, long pants, and non-skid shoes or boots with 6-inch

leather uppers) is recommended during application and/or tear-off activities.

OTHER PROTECTIVE-

EQUIPMENT

Should be provided as necessary to prevent irritation of the throat, eyes, and skin and to keep

exposures below the applicable exposure limits identified in this section.

WORK HYGIENE-

PRACTICES

Use good industrial hygiene practices when handling the material. Wash exposed skin prior to

eating, drinking or smoking and at the end of the shift. Wash work clothes separately from

10 mg/m³

10 mg/m³

other clothing.

EXPOSURE GUIDELINES

ENGINEERING CONTROLS/

VENTILATION

Handle using methods and techniques that minimize dust or fume generation.

SECTION 10 – STABILITY AND REACTIVITY

THERMAL STABILITY Stable under normal conditions of use.

HAZARDOUS-

DECOMPOSITION Upon decomposition this product may form carbon dioxide, carbon monoxide, oxides of sulfur

and various hydrocarbons during heating or burning.

HAZARDOUS-

POLYMERIZATION Will not occur.

CONDITIONS TO AVOID Keep this product away from heat, sparks, ignition sources, and open flames in accordance

with applicable laws and regulations.

INCOMPATIBLE MATERIALS This product will react with strong acids and alkalis, strong oxidizing agents, reducing agents,

and selected amines.

SECTION 11 – TOXICOLOGICAL INFORMATION

ACUTE EFFECTS Repeated contact may cause skin irritation due to roughness of product. If dust enters eye,

may cause irritation resulting in tearing, stinging, redness or swelling. Inhalation of dust, fumes and/or vapor may cause scratchy throat and/or slight coughing. If ingested, it may cause

temporary irritation to the gastrointestinal (digestive) tract.

CHRONIC EFFECTS Redness, drying and cracking of the skin (dermatitis) may occur in the case of prolonged and

repeated contact. Extreme exposures to fumes may cause upper respiratory irritation. Silicosis (Pulmonary Fibrosis or severe lung scarring) may occur if exposed to high levels of repeated

encounters with dust.

COMPONENT ANALYSIS

Asphalt

(CAS Number: 8052-42-4) Furnes from the heating of roofing asphalt have been determined to be potential occupational

carcinogen by the National Institute of Occupational Safety and Health (NIOSH).

Oxidized Asphalt

(CAS Number: 64742-93-4) Occupational exposures to oxidized asphalt and its emissions during roofing have been

determined by the International Agency for Research on Cancer (IARC) as 'probably

carcinogenic to humans'.

Continuous Filament Glass Fiber

(CAS Number: 65997-17-3) The International Agency for Research on Cancer (IARC) has classified continuous filament

glass fiber as a Group 3 substance, not classifiable as to its carcinogenicity to humans. Because of the large diameter of continuous filament fibers, these products are not considered

respirable.

SECTION 12 - ECOLOGICAL INFORMATION

ECOTOXICITY No data available for this product

PERSISTENCE/

DEGRADABILITYNo data available for this product

BIOACCUMULATION-

POTENTIAL No data available for this product

MOBILITY IN SOIL No data available for this product

OTHER ADVERSE EFFECTS-

(GHG, OZONE) No data available for this product

SECTION 13 – DISPOSAL CONSIDERATIONS

PRODUCT INFORMATION This product, as supplied, is not expected to be a hazardous waste when it is disposed of

according to the U.S. Environmental Protection Agency (EPA) under Resource Conservation

and Recovery Act (RCRA) regulations.

DISPOSAL INSTRUCTIONS Dispose of waste material in accordance with Federal, State, and Local environmental

regulations.

RCRA CLASS None
